PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Engineering student with hands-on experience building and deploying full-stack MERN applications, including an AI-integrated resume builder, a restaurant table booking platform, and a personal developer portfolio. Skilled in JavaScript, TypeScript, React, Node.js, Express.js, and MongoDB, with practical experience in REST API design, JWT authentication, database design, and cloud deployment on Vercel and Render. Proven track record of independently taking projects from design through production deployment.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, Python (Basic), HTML5, CSS3

Frontend: React.js, Vite, Tailwind CSS, Bootstrap, Responsive Design, DOM Manipulation

Backend & Database: Node.js, Express.js, MongoDB, MongoDB Atlas, Mongoose, REST API Design & Integration, JWT Authentication

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, Chrome DevTools, npm

Soft Skills: Problem-Solving, Team Collaboration, Quick Learner, Attention to Detail, Self-Motivated

PROJECTS

AI-Powered Resume Builder [Live Demo](#)

- MERN Stack, Google Gemini API, ImageKit, MongoDB
- Built and deployed a full-stack resume builder using React, Vite, and Tailwind CSS on the frontend and Node.js/Express with MongoDB Atlas on the backend, integrating the Google Gemini AI API to auto-enhance resume content.
- Implemented JWT-based authentication, image upload via ImageKit, and shareable resume links; resolved production authentication, routing, and API integration bugs.
- Deployed the React frontend on Vercel and the Express/MongoDB backend on Render, handling environment configuration and API key security across services.

DashDine — Restaurant Table Booking Platform [Live Demo](#)

- TypeScript, Node.js, Express, MongoDB
- Developed the backend for a restaurant table booking application using TypeScript, Node.js, Express, and Mongoose (MongoDB), designing schemas for bookings, users, and restaurants across user, owner, and admin panels.
- Built custom TypeScript interfaces (e.g., AuthRequest) to extend Express request types and enforce type safety across booking and authentication flows.
- Deployed the application using Vercel and Render with a MongoDB Atlas database; debugged and resolved schema field mismatches and database connectivity issues, strengthening backend reliability.

Personal Portfolio Website [Live Demo](#)

- HTML5, Tailwind CSS, JavaScript
- Designed and developed a responsive personal portfolio website using React and Tailwind CSS to showcase projects, technical skills, and resume for recruiters.
- Deployed the site on Vercel with continuous deployment from GitHub, ensuring fast load times and mobile-responsive layout.

EXPERIENCE

Frontend & Full-Stack Developer — Self-Initiated Projects | Jan 2025 – Present

- Independently designed, developed, and deployed multiple full-stack web applications (React, Node.js/Express, MongoDB) covering requirement analysis, UI design, backend development, and cloud deployment.
- Applied Git/GitHub version control best practices including branching, commits, and documentation via README files.
- Worked across the MERN stack and TypeScript, gaining practical experience in REST API design, authentication, and cloud deployment on Vercel, Render, and MongoDB Atlas.

EDUCATION

B.Tech, Computer Science & Engineering — GH Rasoni University, Saikheda | 2023–2027 | CGPA: 9.03

HSC – Maharashtra State Board (2023) | SSC – Maharashtra State Board (2021)

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Data Science – Cisco Networking Academy (Jan 2026)
- Python Programming – GH Rasoni University (June 2025)
- HTML & CSS Certificate – GH Rasoni University (Mar 2024)
- Internshala Student Program Participant (Dec 2025)
- Project Selected for College Hackathon 2025

LANGUAGES

English (Professional) | Hindi (Native) | Marathi (Conversational)
